Please Provide A Summary of Your Request, Including Background Information to Explain the Request:

This resolution authorizes a construction easement that would allow the Public Works Department to address some longstanding erosion issues on the mountainous tract owned by Mrs. Barnwell adjacent to Shugart Road. Due to the steep topography of this lot and drainage originating near the top of the ridge, rocky sediment debris is displaced into Shugart Road and downstream properties during heavy rain events. This temporary construction easement will allow for the City to install permanent structural measures to mitigate future erosion.
