RE: Application for Telecommunication Franchise with the City of Dalton

Dear City Clerk,

Please find enclosed a complete franchise agreement application package for review by the City of Dalton pursuant to the requirements of O.C.G.A. § 46-5-1. Should the City have any questions, concerns and/or need any additional information, then please do not hesitate to contact me at (202) 257-9677 or kathryn.robertson@accelecom.net; I would be more than happy to assist.

Respectfully Submitted,

Kathryn Breiwa Robertson
Head of Government Affairs

Accelecom

May 19, 2025

Pursuant to paragraph (2) of subsection (b) of Code Section 46-5-1 of the Official Code of Georgia Annotated, the municipal authority shall notify the applicant of any deficiencies in this application within 15 business days of receipt of this application.

Accelecom Application for Telecommunications Franchise Agreement

City of Dalton

Accelecom Service Area Description

Proposing utilizing ROW within city limits for fiber optic cable installations

Attachment D

Description of Services to be Provided

Accelecom provides access to a state-of-the-art fiber optic network delivering fast data services in Georgia, Kentucky, and *places in between*. We are committed to providing higher speed access with market leading prices to community offices, county offices, schools, healthcare facilities and businesses

Enterprise Ethernet Services

We firmly believe that every business deserves access to a robust fiber backbone to leverage bandwidth-intensive applications and accelerate business continuity plans. Accelecom's network delivers point-to-point Ethernet transport services using the latest DWDM technology.

Transport services include Wavelength, Carrier Ethernet, and SONET/TDM services from our network hubs. We offer symmetrical IP connections from 1 Mbps to 100 Gbps, protected configurations, and secure Layer 2 private WAN services.

PRIVATE

Your ethernet connection is a direct path between your locations and our data centers which NEVER

touches the internet. Your provisioned bandwidth is always available to you and never shared.

Dedicated Internet Access

Accelecom's reliable and scalable network provides the symmetrical bandwidth you need to meet your unique network requirements. Our proactive monitoring and managed services provide for improved reliability and security over typical commodity IP offerings. Our DDoS Mitigation services provide cutting edge protection from unwanted overload attacks on your network.

Whether your business is in a rural or a metropolitan location, you can count on uptime as well as consistent speeds because of Accelecom's fiber-rich network and state of the art equipment.

Accelecom Network Services

RESILIENT

Our network was built with redundancy, diverse routes, and capacity as paramount objectives. In the

unlikely event of a fiber cut, we can quickly re-route traffic to another data center without our users

being aware of an outage.

24/7 MONITORING

Few carriers still offer this service, but we prefer a proactive approach to network design and reliability. We are constantly working to improve the network and act when notified of any potential capacity issue or network breach. We will likely have the problem fixed before our clients are even impacted.

DEDICATED

When you have dedicated Internet access, you no longer need to worry about the Internet slowing down at peak usage times. Your connection is a direct path from our data center to your location where the provisioned bandwidth is always available to you and never shared.

SCALABLE

Each connection is built for fast symmetrical Internet service up to 10 Gbps. No hardware changes are needed from 100M-10G and 10G-100G is available upon request. Reach out to your fiber consultant to request an upgrade, but if you are nearing the capacity of your connection, you will probably be hearing from them soon.

Industry Leading Service Level Agreements

| Pit | SLA Metric | Guarantees |
|-----|---|------------|
| | Service Availability Metro (<250km), Regional (<1200km) | 99.99'.., |
| | Frame Loss Ratio | 5 0.01% |
| | Latency / Frame Delay (Round-trip) | 5 23 ms |
| | Jitter / Frame Delay Variation | 5 3 ms |
| | MTTR (Depending on Severity) | 4 hours |
