STEVE FARROW

### TRAFFIC CONTROL CHANGE

Type: Three-way Stop

Location: Ryman Ridge Road & Ridgeview Drive

Comments: The purpose of this Traffic Control Change is to implement a three-way Stop for the intersection of Ryman Ridge Road & Ridgeview Drive. At said location, the addition of a new phase to the Ryman Farms subdivision has yielded the need to change the existing intersection from a through street to an all way stop. The eleventh edition of the Manual on Uniform Traffic Control Devices for Streets and Highways, in Section 2B.14 "All-Way Stop control Warrant B: Sight Distance" provides a warrant for all-way stop control where sight distance on road approaches is not adequate for conflicting traffic to negotiate the intersection unless conflicting cross traffic is also required to stop. Moreover, Section 2B.17 "All-Way Stop Control Warrant E: Other Factors" part C. allows for all-way stop control where pedestrian and/or bicyclist movements support the installation of all-way stop control. The intersection in question meets both Warrant B and Warrant E for all-way stop control. If the Traffic Control Change is approved, the Public Works Department will install the required signage.
