RE: Engineer Dale Stratton Inspector Assignment

Greetings,

I am making a recommendation for the reassignment of Engineer Dale Stratton to the Preventions Division as an Inspector.

Engineer Stratton has been actively working on the certifications required to work within the Preventions Division. He has been working with Lieutenant Daniel and assisting them when time permits in order to learn the tasks required. As an Engineer, Dale proved to be a valuable contributor to the department and I believe he will continue to do the same in his new role. During his time in the suppression division, Engineer Stratton obtained several certifications indicating his dedication to our profession. He served as a member of the Georgia Search and Rescue Team, requiring him to obtain several certifications in advance rescue disciplines. He also has completed his Paramedic Certification, all of which indicates his drive and ability to complete the tasks placed before him. He also has completed the requirements for Emergency Medical Technician Instructor, allowing him to act as one of our three in-house instructors for recertification of our EMT's. After conducting interviews of all the applicants for this position, these are just some of the reasons that we chose Engineer Stratton for this new challenge in his career. We believe that he will be a good fit for the Prevention Division, and will excel in his new role.

I would appreciate your support in recognizing Engineer Dale Stratton with a reassignment to the role of Inspector.

Thank you all for your consideration.

Todd Pangle
Fire Chief
