**Please Provide A Summary of Your Request, Including Background Information to Explain the Request:**

This agenda item request is to approve the stormwater corrective action plan for 2251 Rocky Face Circle. There has been an ongoing issue with erosion at this location due to the discharge location of stormwater that is derived on City owned property. By approval of this corrective action plan, Public Works will install approximately 90' of pipe into the property and change the discharge location to a more desired location as to eliminate the erosion possibility. This has been reviewed and approved by the Public Works Committee.
