Mr. Andrew Parker Public Works Department Dalton, GA

- Re: Proposal for Site Design Services Covie Drive Dalton, GA
- 01 Topographic Survey

Richards & Associates Engineering, Inc. (RAE) will contract with Lewis & Associates Land Surveying (LALS) to provide a topographic survey of the subject area to include lots on Covie Drive and a portion of lots on Winton Drive. LALS will also provide the asbuilt survey of the pond after construction.

02 Site Design

\$6,500

\$3.100

Richards & Associates Engineering, Inc. (RAE) will use the topographic survey to design and prepare construction drawings for a regional detention pond to mitigate storm events for downstream properties. This will include a Grading and Drainage Plan, Erosion Control Design, and construction details.

We will design the detention pond as a "best fit" to maximize the mitigation using the available area on the lots on Covie Drive. The pond will be designed for peak flow attenuation only and will not include water quality or meet the requirements of the current city stormwater ordinance.

We will prepare an Erosion, Sedimentation and Pollution Control Plan as required by The City of Dalton per the Manual for Erosion and Sediment Control in Georgia and per the requirements of the National Pollution Discharge Elimination System (NPDES), Georgia permit GAR 100001 for Stand-Alone Projects. We will assist with submittal of the Notice Of Intent (NOI) to the Georgia Environmental Protection Division.

RAE will provide the required stormwater management pond as-built survey and certification.

We will visit the site two (2) times during construction; one time for the required Seven-Day inspection, and once for the pond certification. All other requested visits will be billed hourly per the attached fee schedule.
