GARY CREWS

TRAFFIC CONTROL CHANGE

Type: No Parking – This Side of Street

Location: Rucky Drive (at the Intersection of Walnut Avenue on
the west side of the street for the first 90 feet; see attached
map)

Comments: When vehicles are parked within the first ninety (90)
feet of the west side of the street, site distance for vehicles
turning left onto Walnut Avenue becomes an issue. There
are also safety concerns for vehicles turning right onto
Rucky Drive off of Walnut Avenue, due to vehicle site
distance headed south and the need to enter into the
opposite lane and head on into oncoming traffic. This
presents a potential public/life safety issue. Once the Traffic
Control Change is approved, the Public Works Traffic
Division will post "No Parking – This Side of Street" signs to
prohibit on-street parking in the areas described above.
