CITY OF Dickinson North Dakota

Engineering Memorandum

June 26, 2025

RE: July 1st Commission Meeting

MASTER SERVICE AGREEMENT WITH PICTOMETRY INTERNATIONAL CORP. DBA EAGLEVIEW

For your consideration is a master service agreement (MSA) with Pictometry International Corp. DBA EagleView. The benefits of having a MSA versus providing a contract for each change to our system are; consistent terms and conditions regardless of the type of change to the contract, City of Dickinson utilization of the new software tools making the system easier to use, the current contract to utilize Connect Explore software will be ending in 2026 which is currently required to access the aerial imagery, and reduced review time by staff for future project contracts.

The City Engineering staff recommends approval.
