Consolidated GuestNet Internet Contract

This item serves to provide a dedicated GuestNet network for the Public throughout City Hall and Town Square. Once this hardware is in place, we anticipate replacement of existing connectivity and network path changes that will replace the existing internet connectivity for guestnet. The estimated monthly cost for this is \$179.99 with a yearly cost of \$2,159.88. This agreement is similar in nature to what we have for GuestNet connectivity at our other locations.

Aaron Meyer

IT Director
