

Engineering Memorandum

December 30, 2024

RE: January 7, 2025 City Commission Meeting

HWY 22 TRAFFIC SIGNALS COST PARTICIPATION AND MAINTENANCE AGREEMENT NDDOT PCN 23738

For your consideration is a cost participation and maintenance agreement with the North Dakota Department of Transportation (NDDOT) project 5-022(145)070, PCN 23738 – Dickinson ND 22 Signal Replacement project. The cost participation, as stated in item “a” on page 1 of 7 of the agreement is noted to be \$0 of the total actual costs for the project. The only scope of work requested for the project by the City of Dickinson are traffic cameras at each intersection, and the IR beacons to allow emergency vehicles to pass through the intersection without stopping. These costs are accounted for in the 2025 Capital Improvement Program budget for this project.

Part II of this agreement details the City of Dickinson post construction requirements.

Part III of this agreement details the City of Dickinson maintenance requirements for the project.

If this cost participation and maintenance agreement is approved by the City Commission, the agreement will be sent via DocuSign to the Mayor, the City Administrator, and the City Attorney for their electronic signatures.

Engineering staff recommend approval.
