

Engineering Memorandum

September 24, 2026

RE: October 6th Commission Meeting

202517 – WRF IFAS IMPROVEMENT – BID AWARD TO CC Steel.

For your consideration is a bid award for the project number 202517 – Water Reclamation Facility (WRF) Integrated Fixed-Film Activated Sludge (IFAS) Improvement project. The bid opening took place at City Hall on Thursday September 17, 2026 where two mechanical bids were received. The engineer's opinion of probable cost was \$280,000 - \$315,000, and the lowest total bid was ***\$292,000.00***.

Key attributes to the project include:

- Install underground piping from the existing reuse water mains to the IFAS, above ground piping, spray bar installation, and new safety harness tie off points.

One electrical bid was received which did not meet the bidding requirements. Because the bid did not meet the bid requirements, the bid was not opened and it was returned to the bidder.

The construction is planned to be completed during the 2026 construction season. The project was budget in the 2026 capital improvement project plan with Cash on Hand.

The city engineering and public works staff recommend approval.
