

Engineering Memorandum

September 30, 2026

RE: October 6th Commission Meeting

202518 – WRF Preliminary Treatment Improvements – H2S Detection System Replacement Proposal from Enetk LLC.

For your consideration is a proposal, from Enetk LLC., for the project number 202518 – Water Reclamation Facility (WRF) Preliminary Treatment Improvement project. The price for the proposal is **\$36,230.00.**

Key attributes to the project include:

- Replace the existing building's 4 gas monitoring system with a new one, install strobe beacons inside the Preliminary Treatment Building for visual indication of the presence of hazardous gases, and connect the new 4 gas monitoring system to the City's network to allow for remote monitoring and notification of the presence of hazardous gases.

The construction is planned to be completed during the 2026 construction season. The project was budget in the 2026 capital improvement project plan with Cash on Hand.

The city engineering and public works staff recommend approval.
