Members of the Planning and Zoning Commission:

We are writing in support of Neveah Baranko, and her business, Plum Creek Canines.

Neveah has worked with our dogs in a training capacity, as well as providing dog daycare, check-ins, and dog walking while we have been out of town several times in the past months. The services and care furnished have been exemplary and above our expectations. We feel our pets have received professional and outstanding care and have developed a very positive bond with Neveah.

We know there is a shortage of quality boarding and dog care facilities in this area, and will continue to use Plum Creek Canines, where our dogs are watched over, exercised, fed and treated very well. This is a critical service for dog owners and appreciate the reasonable cost and peace of mind we have while using Neveah's services.
