

**ORDINANCE NO. 2024**

**AN ORDINANCE AMENDING AND RE-ENACTING SECTIONS 39.04.005  
OF ARTICLE 39, RELATING TO DEVELOPMENT REGULATIONS**

BE IT ORDAINED BY THE BOARD OF CITY COMMISSIONERS OF THE CITY OF DICKINSON, NORTH DAKOTA, AS FOLLOWS:

**Section 1:** Section 39.04.005 of Article 39 of the City Code of the City of Dickinson is hereby amended and re-enacted as follows:

**Section 39.04.005 Development Regulations**

For each Zoning District: Purposes are set forth in Table 4-1, Permitted Uses are set forth in Table 4-2, and Site Development Regulations are presented in Table 4-3. Supplemental Regulations may affect specific land uses or development regulations in each zoning district. The applicable Supplemental Regulations are noted in Table 4-2. (Ord. No. 1171 § 1.)

Table 4-1 Purposes of Zoning District

<b>Symbol</b>	<b>Title</b>	<b>Purpose</b>
<b>AG</b>	Agricultural District	The AG District provides for and preserves the agricultural and rural use of land, while accommodating very low density residential development generally associated with agricultural uses. This district is designed to maintain complete agricultural uses within the Dickinson extra-territorial jurisdiction.
<b>RR</b>	Rural Residential	This district provides for the rural residential use of land, accommodating very low and low density residential environments. The district's regulations assure that density is developed consistent with: land use policies of the Dickinson Comprehensive Plan regarding rural subdivision; levels of infrastructure; and environmentally sensitive development practices. The district also accommodates developments that merge urban living with rural life.
<b>R-1</b>	Low-Density Residential	This district is intended to provide for low-density residential neighborhoods, characterized by single-family dwellings on relatively large lots with supporting community facilities and urban services. Its regulations are intended to minimize traffic congestion and to assure that density is consistent with the carrying capacity of infrastructure.
<b>R-2</b>	Medium-Density Residential	This district is intended to provide for medium-density residential neighborhoods, characterized

		by single-family dwellings on small to moderately sized lots and low-density, multiple-family development. It adapts to both established and developing neighborhoods, as well as transitional areas between single-family and multi-family neighborhoods. Its regulations are intended to minimize traffic congestion and to assure that density is consistent with the carrying capacity of infrastructure.
<b>R-3</b>	High-Density Residential	This district is intended to provide locations primarily for multiple-family housing, with supporting and appropriate community facilities. It also permits some non-residential uses such as offices through a special permit procedure, to permit the development of mixed use neighborhoods.
<b>MH</b>	Mobile Home Residential	This district recognizes that mobile home development, properly planned, can provide important opportunities for affordable housing. It provides opportunities for mobile home development within planned parks or subdivision, along with the supporting services necessary to create quality residential neighborhoods.
<b>LC</b>	Limited Commercial	This district reserves appropriately located area for office development and a limited variety of low-impact commercial facilities which serve the needs of residents of surrounding residential communities. The commercial and office uses permitted are compatible with nearby residential areas. Development regulations are designed to ensure compatibility in size, scale, and landscaping with nearby residences.
<b>CC</b>	Community Commercial	This district is intended for commercial facilities which serve the needs of markets ranging from several neighborhoods to the overall region. While allowed commercial and office uses are generally compatible with nearby residential areas, traffic and operating characteristics may have more negative effects on residential neighborhoods than those permitted in the LC District. CC Districts are appropriate at major intersections, at the junction of several neighborhoods, or at substantial commercial sub-centers. Outdoor storage shall be limited and screened.

<b>DC</b>	Downtown Commercial District	This district is intended to provide appropriate development regulations for Downtown Dickinson. Mixed uses are permitted within the DC District and are encouraged in multi-story structures. The grouping of uses is designed to strengthen the town center's role as a center for trade, service, and civic life.
<b>GC</b>	General Commercial	This district accommodates a variety of commercial uses, some of which have significant traffic or visual effect. These districts may include commercial uses which are oriented to services, including automotive services, rather than retail activities. These uses may create land use conflicts with adjacent residential areas, requiring provision of adequate buffering. This district is most appropriately located along major arterial streets or in areas that can be adequately buffered from residential districts.
<b>LI</b>	Limited Industrial	This district is intended to reserve sites appropriate for the location of industrial uses with relatively limited environmental effects. The district is designed to provide appropriate space and regulations to encourage good quality industrial development, while assuring that facilities are served with adequate parking and loading facilities.
<b>GI</b>	General Industrial	This district is intended to accommodate a wide variety of industrial uses, some of which may have significant external effects. These uses may have operating characteristics that create conflicts with lower-intensity surrounding land uses. The district provides the reservation of land for these activities and includes buffering requirements to reduce incompatibility.
<b>P</b>	Public	This district accommodates substantial public institutions or uses. It sets aside areas for conservation, public recreation, and full access public facilities.
