

2025 Watermain & Lead Service Line Replacement Project

ORANGE = 6-INCH CAST IRON MAIN TO BE REPLACED WITH 8-INCH PVC

PURPLE = 6-INCH CAST IRON MAIN TO BE ABANDONED IN PLACE

2025 Watermain & Lead Service Line Replacement Project

> Special Improvement District Benefits:

- > The streets, curb and gutter, and sidewalks need repairs. Several of the sidewalks are not ADA compliant. These improvements will ensure safe pedestrian walkability and access throughout the neighborhood. The street improvements will extend the life expectancy of the roadways and will reduce maintenance costs for the City.
- > The watermains are 6-inch cast iron. These mains are the most frequent material to break. The mains are often corroded, filled with mineral deposits, cause water color issues, and lack sufficient flow to meet fire flow requirements.
- > There are multiple lead services lines that will be replaced from the watermain all the way to the meter in the building and will be paid for 100% by the City of Dickinson. The lead service lines replacements will ensure safe drinking water.
