STAFF ANALYSIS

BACKGROUND

The property is located outside of the City's Urban Service Area as depicted in Chapter 6-Infrstructure of the City's Comprehensive Plan. Potable water would be provided either by a potable well or by connection with the Southwest Water Authority. Any new residences shall utilize a septic system.

CURRENT ORDINANCE REVIEW

The proposed subdivision involves the vacation of rights-of-way, and as such is considered a major plat according to Section 52-1 of the City Municipal Code. Access to 32nd Street SW would be provided by a proposed private ingress/egress easement that would connect to 11th Avenue SW, preventing any proposed lots from being landlocked.

The minimum lot size for RR-zoning is one acre, as outlined in Table 62-162-3a: Summary of Site Development Regulations of the Municipal Code. All lots located in this plat meet this minimum lot size requirement.

The site was first platted in 1981, and has not seen any residential development within its boundaries since. Street infrastructure has not been extended into the site, and a significant portion of the subdivision is located within Zone A of the floodplain.

The proposed 12-foot utility easement vacation proposed with this plat will be required to follow the easement vacation process as defined in the City of Dickinson Municipal Code Section 52.12.

The proposed 66-foot-wide ingress/egress easement proposed with this plat is required to be routed outside of the Federal Emergency Management Agency Special Flood Hazard Area Zone A limits.

Stark County Weed Control Officer requests developers in the ETZ contact their office and arrange for an invasive weed inspection prior to submittal of building permit applications.
