RE: Updated Commission Agenda Memo (Concrete and Asphalt Crushing Services)

The City of Dickinson Street Division solicited quotes by RFP to provide concrete and asphalt crushing services of our current stockpiles located at the Dickinson Landfill. The stockpiles are estimated at approximately 12,000 tons each. The bid opening was held at 9:00 AM on Monday, March 31, 2025 in which two bids were received. The bids from Fisher Sand and Gravel and Knife River Corporation are attached for review. It is Public Works staff recommendation to offer the services to Fisher Sand and Gravel. This is a time-sensitive agenda item as we have recently allocated our current crushed stockpiles to the North Industries project therefore not leaving us any remaining materials to use throughout the duration of the summer as projects arise.

Thank you,
