## STAFF ANALYSIS

## BACKGROUND

An existing 297-unit convenience storage facility is located on Lot 1, Block 1 of the Badlands Storage Subdivision. The City approved the SUP for that facility. The applicant's plan is to increase the number of units to 609. The additional 312 units would be located on Lot 1, Block 1 of Tweeten's 3<sup>rd</sup> Addition. A new SUP is required for the following reasons;

- The applicant is increasing the total number of units
- The applicant is increasing the number of parking spaces;
- The expansion would occur on a lot that is not part of the existing SUP; and
- The site plan for the existing operating requires modification.

There is an associated Final Minor Plat application for Badlands Storage 2<sup>nd</sup> Addition Subdivision was submitted with this application (FLP-003-2025). Approval of this SUP is contingent upon approval of the proposed Badlands Storage 2<sup>nd</sup> Addition Subdivision.

## CURRENT ORDINANCE REVIEW

The proposed development is located within a CC-zoned district. Since the property is not zoned Agriculture (AG), General Commercial (GC), or Limited Industrial (LI), the development

regulations for convenience storage uses, as outlined in Municipal Code Section 39.06.005(f) shall not apply.

The property is within 400 feet of the 3<sup>rd</sup> Avenue W right-of-way and is subject to the requirements of the Corridor Overlay District. The applicant has submitted a rendering for the building elevation for all buildings facing the corridor, as well as a landscaping plan. The buildings along 3<sup>rd</sup> Avenue West shall be constructed prior to any interior buildings in order to screen them during construction.

### **COMPATIBILITY WITH LOCAL USES**

The lots to the south and east have all developed either commercially or industrially, which is compatible with the proposed convenience storage use.

The lot to the West of the proposed property is zoned Medium-Density Residential (R-2). For all expansion and new construction, a landscape buffer of 20 feet is required, and opaque screening of the rear elevation of the development is required. The site plan submitted by the applicant includes both of these requirements. The existing buildings do not have to be adjusted unless significant reconstruction of said buildings takes place.
