To: Deadwood City Commission
From: Justin Lux
Re: Trolley 4 Motor

After receiving approval to have the timing chain in Trolley 4 replaced, staff took the vehicle to Inland Truck Parts and Service for that work. Once the motor was removed, it was discovered cylinder 8 had scoring, pitting, and damage to the piston and rings. The only reasonable solution for this issue is a new motor. We received estimates for a motor replacement in early February from three shops and Inland's estimate was \$21,005.49. Inland advised they would honor that estimate. Inland can complete the work in a reasonable amount of time and for a competitive price.

Thank you for your consideration regarding this matter.
