DESCRIPTION OF ACTIVITY

Describe in detail, the above activity (use attachments if necessary including type of materials to be used) and submit as applicable. Descriptive materials such as photos and drawings are necessary to illustrate the work and to help the commissioners and staff evaluate the proposed changes. Information should be supplied for each element of the proposed work along with general drawings and/or photographs as appropriate.

Failure to supply adequate documentation could result in delays in processing and denial of the request. Describe in detail below (add pages as necessary).

The purpose of this application is to repair areas of our front porch. The primary focus of the repair is along the facade below the second story railing. Another focus of the repair will be to replace our current first floor deck boards with Trex composite tongue and groove boards. A railing will be added along our porch steps. Gutters will also be added. New lattices will be added to replace our existing ones. *The goal of this project is to restore our porch consistent with its original architectural style and historic character.*
