Case No. 250207  
Address: 390 Williams St

### **Staff Report**

The applicant has submitted an application for Project Approval for work at 390 Williams St., a Contributing structure located in the Forest Hill Planning Unit in the City of Deadwood.

Applicant: Lee Augsbury  
Owner: AUGSBURY, LEE A0  
Constructed: c 1880

### **CRITERIA FOR THE ISSUANCE OF A PROJECT APPROVAL**

The Historic Preservation Commission shall use the following criteria in granting or denying the Project Approval:

#### **General Factors:**

##### **1. Historic significance of the resource:**

This building is a contributing resource in the Deadwood National Historic Landmark District. It is significant for its historic association with the founding and initial period of growth of the town of Deadwood. Spurred by the tremendous mining boom of 1876, Deadwood grew quickly and became the first major urban center of western South Dakota. Deadwood's economic prominence during the late 1800s and early 1900s was reflected by the construction of a number of large residences such as this one. These houses displayed a variety of architectural styles; Queen Anne, Second Empire, Colonial, and even Gothic variants are found locally. Together, these houses are among the strongest reminders of Deadwood's nineteenth-century boom.

##### **2. Architectural design of the resource and proposed alterations:**

The applicant is requesting permission to remove and replace (4) crestline grand wood double hung windows with Pella Reserve wood double hung windows. Pella windows to be painted red and green to match the original photo provided by the homeowner. The interior and exterior trim details to match existing profiles. This is a phase 2 install and will be like phase 1 that was recently complete.

**Attachments:** Yes

**Plans:** Yes

**Photos:** Yes

#### **Staff Opinion:**

The current windows are not the original windows to the structure. Based on staff research, the windows were part of the 1994 rehabilitation project of this resource. The wood-replacement windows will not affect the historic character of the structure.

It is staff's opinion, the proposed work and changes do not encroach upon, damage, or destroy a historic resource or have an adverse effect on the character of the building or the historic character of the State and National Register Historic Districts or the Deadwood National Historic Landmark District.

## Motions available for commission action:

### **A: If you, as a commissioner, have determined the Project DOES NOT Encroach Upon, Damage or Destroy a historic property then:**

Based upon all the evidence presented, I find that this project **DOES NOT** encroach upon, damage, or destroy any historic property included in the national register of historic places or the state register of historic places, and therefore move to grant a project approval.
