Trent:

It is my understanding Pat Eastman is requesting the re-installation of the Texaco sign at 73 Sherman Street. This sign would be considered and certified by myself as the Historic Preservation Officer as a Historic Landmark Sign under Article VI of Chapter 15.32 of the Deadwood Codified Ordinances. The sign in question appears in the Boots on Bricks publication (attached) and is circa mid-1920s.

Let me know if you need anything else. Thank you.

Kevin Kuchenbecker
Historic Preservation Officer

Following guidelines from Governor Kristi Noem and the Federal CDC regarding the COVID-19 Pandemic, the City of Deadwood is limiting public access to City Hall and staff offices. Staff will not receive walk-ins. Please schedule a telephonic appointment.

90. TEXACO STATION

*73 Sherman Street (c.1952) -
Walter Dorwin Teague, Architect -*
This lot was occupied by the Home
Service Texaco Station as early as 1928.

In 1934, industrial designer Walter Dorwin Teague was hired by Texaco to design a series of prototype stations, which the company then adapted to individual sites nationwide.

This particular example was among the last to be built in the early 1950s. Teague-designed stations were once one of the most recognizable structures on the American highway. Now, due to Texaco's desire to modernize its corporate image, these stations are becoming increasingly rare.
