In November 2021 I made application for new home construction. At that time, I did not consider that I would need to provide pictures of my garage door panels with my application.

It's my understanding that there now has been a complaint, although I don't know from whom, about the garage door panel not being adequate for the historic district.

I do live in historical residential zoning. However, there are no historic buildings or homes in my immediate neighborhood.

I believe that my cabin, while a replica, is one of the most historic looking homes in my neighborhood. And I also believe the flag is historic as well.

Since I have been requested to remove the door panels, I have had several immediate neighbors, and others, approach me about asking to keep the door panel up.

Consequently, this request for a variance is also about giving the neighborhood a voice as well.

I am seeking a variance to keep the door panels up. Thank you for your consideration.
