Staff Opinion:

The applicant is considering and is eligible for the HP Retaining Wall Program. This project approval is for concrete block which has been used on similar projects within the Deadwood National Historic Landmark District; however, recently we have been requiring the ledgestone variation of the stone block which resembles stacked stone. The proposed work and changes do not encroach upon, damage or destroy a historic resource or have an adverse effect on the character of the building or the historic character of the State and National Register Historic Districts or the Deadwood National Historic Landmark District with the contingency of using ledgestone blocks.
