Case No. 260169
Address: 330 Williams St.

Staff Report

The applicant has submitted an application for Project Approval for work at 330 Williams St., a Contributing structure located in the Forest Hill Planning Unit in the City of Deadwood.

Applicant: Travis & Jenny Starks
Owner: STARKS, TRAVISSTARKS, JENNY
Constructed: C 1897

CRITERIA FOR THE ISSUANCE OF A PROJECT APPROVAL

The Historic Preservation Commission shall use the following criteria in granting or denying the Project Approval:

General Factors:

1. Historic significance of the resource:

This building is a contributing resource in the Deadwood National Historic Landmark District. This is an early Deadwood house which was remodeled during the pre-World War II years; consequently, it has historic associations with both Deadwood's nineteenth-century mining boom and the region's mining revival of the late 1920s and 1930s. This house displays architectural elements which were popular during the latter period. In Deadwood-as elsewhere in the United States--residential remodels commonly borrowed from the then popular Craftsman style. Other remodels copy traditional forms seen in the "Picturesque Revival" styles.

2. Architectural design of the resource and proposed alterations:

The applicant is requesting permission to replace the two garage doors. The proposed doors will be Haas 700 Series. They will be the recessed short panel doors. These are steel-insulated doors and will be painted to match the house trim. The house will be repainted with the same yellow but are looking to update the trim color.

Staff Opinion:

The current door configuration of the garage door is a six-panel wide by four panels tall door. The proposed door is a four panel by four panel configuration. It is staff's opinion the proposed metal door would be acceptable but would need to be a six-panel configuration to keep the existing proportions and historic character. We have reached out to the applicant regarding this matter.

If applicant accepts staff's recommendation, it is staff's opinion, the proposed work and changes do not encroach upon, damage, or destroy a historic resource or have an adverse effect on the character of the building or the historic character of the State and National Register Historic Districts or the Deadwood National Historic Landmark District.

Motions available for commission action:

Based upon all the evidence presented, I find that this project **DOES NOT** encroach upon, damage, or destroy any historic property included in the national register of historic places or the state register of historic places, and therefore move to grant a project approval.
