## **FINDINGS OF FACT AND CONCLUSION**

---

### **COMPLIANCE:**

1. A sign was posted on the property for which the request was filed as required by Section 17.80.010.B.
2. Notice of time and place for the public hearing was published ten (10) days in advance of the hearing in the designated newspaper of the City of Deadwood as required by Section 17.80.010.B.
3. Application(s) requirements were met.

### **FINDINGS:**

1. Planning and Zoning staff conducted a site visit and concluded that the applicant has limited buildable space due to the size and shape of the lot. Strict adherence to the ordinance would adversely affect the rhythm, site, and setting of the National Landmark District, and the State and National Register Historic Districts (Collectively known as historic districts for the balance of this report).
2. The construction of the proposed carport would be for the existing single-family home that is a use by right in the R1 – Residential Zoning District.
3. The intent and purpose of this application for variance, if granted, is to mimic existing setbacks on adjacent historic properties and to allow the maximum use of the land. The remaining bulk and height regulations are met (i.e., side and rear setback requirements and height).
4. The proposed project is compatible with the area. The granting of the proposed structure will not be detrimental to fire safety, clearance, preservation of light and open space and/or visual and aesthetic concerns. The variance will not alter the essential character of the surrounding area in which the property is located; substantially or permanently impair the appropriate use or development of adjacent property.
5. There is evidence of practical difficulty due to the size of the lot.

6. The use and value of the area adjacent to the property included in the variance request will not be affected in an adverse manner. There will be no significant adverse impacts on water supply, schools, or other services. A variance cannot be granted if it would pose any threat to the public health or safety. This finding includes concerns such as fire safety, and visual and aesthetic concerns.
7. The applicant has paid the \$200.00 fee to process the variance and have the public hearing.
8. The applicant has proven to the City of Deadwood Planning and Zoning office that they are the current owner of subject property.
9. For the above-mentioned reasons, and based on the information and findings included in the Staff Report, Minutes, and other records of proceedings, the Deadwood Planning and Zoning Commission and Board of Adjustment recommended approval of the variance.
