Case No. 230142
Address: 65 Terrace St.

Staff Report

The applicant has submitted an application for work at 65 Terrace St., a contributing structure located in the Cleveland Planning Unit in the City of Deadwood.

Applicant: Chris Blair
Owner: BLAIR, CHRISTOPHER & CANDACE LO
Constructed: c 1896

CRITERIA FOR THE ISSUANCE OF A PROJECT APPROVAL

The Historic Preservation Commission shall use the following criteria in granting or denying the Project Approval:

General Factors:

1. Historic significance of the resource:

This building is a contributing resource in the Deadwood National Historic Landmark District. It is significant for its historic association with the founding and initial period of growth of the town of Deadwood. Spurred by the tremendous mining boom of 1876, Deadwood grew quickly and became the first major urban center of western South Dakota. Deadwood's economic prominence during the late 1800s and early 1900s was reflected by the construction of a number of large residences such as this one. These houses displayed a variety of architectural styles: Queen Anne, Second Empire, Colonial, and even Gothic variants are found locally. Together, these houses are among the strongest reminders of Deadwood's nineteenth-century boom.

2. Architectural design of the resource and proposed alterations:

The applicant is requesting permission to repair the siding. The siding on dormers and back of house are rotting and leaking. We will be removing rotting and damaged siding boards and replacing. We will be replacing damaged with same type (wood) and style as existing to exactly match the rest of the home siding. The repaired siding will be repainted to match existing home color.
