Variances:

In the event that the rules and regulations provided in Chapter 15.32 are inadequate to address the type of signage a variance may be obtained if the Sign Review Commission is able to find “special circumstances or conditions such as the existence of buildings, topography, vegetation, sign structures, distance or other matters on adjacent lots or within the adjacent public right-of-way that would substantially restrict the effectiveness of the sign in question and such special circumstances or conditions are peculiar to the particular business or enterprise to which the applicant desires to draw attention and do not apply generally to all businesses or enterprises in the area.” (See 15.32.080 B) **However, it is the responsibility of the applicant to provide adequate evidence of such special circumstances or conditions. It is not the City’s responsibility to figure out reasons to vary from its own ordinances. Thus, if you want consideration for a variance, you must also include information that would support a variance being granted.**
