Case No. 240245 Address:
346 Williams St.

Staff Report

The applicant has submitted an application for Project Approval for work at 346 Williams St., a contributing structure located in the Forest Hill Planning Unit in the City of Deadwood.

Applicant: Tyler Nelson
Owner: ULURU LLC0
Constructed: 1935

CRITERIA FOR THE ISSUANCE OF A PROJECT APPROVAL

The Historic Preservation Commission shall use the following criteria in granting or denying the Project Approval:

General Factors:

1. Historic significance of the resource:

This building is a contributing resource in the Deadwood National Historic Landmark District. It is significant for its historic association with the growth and economic activity which took place in Deadwood and the northern Black Hills from the late 1920s until World War II. Spurred by resurgence in local mining activity, Deadwood experienced a period of expansion and new construction during these decades that it had not seen since the nineteenth century. This house is vernacular in style.

2. Architectural design of the resource and proposed alterations:

The applicant is requesting permission to replace the deck with a different design that was previously approved.

Attachments: Yes

Plans: Yes

Photos: Yes

Staff Opinion:

The applicant received project approval September 25, 2024 to replace the deck on the front of the structure. The applicant is now wanting to change the original design. It will be wood construction with Trex Decking on the floor. This approval should be contingent upon the railing posts remain wood with no covering giving it the same look as the railing next door as previous approval.

The proposed work and changes do not encroach upon, damage, or destroy a historic resource or have an adverse effect on the character of the building or the historic character of the State and National Register Historic Districts or the Deadwood National Historic Landmark District.

Motions available for commission action:

Based upon all the evidence presented, I find that this project **DOES NOT** encroach upon, damage, or destroy any historic property included in the national register of historic places or the state register of historic places, and therefore move to grant a project approval.
