

Case No. 210196
Address: 74 Cliff St.

Staff Report

The applicant has submitted an application for Project Approval for work at 74 Cliff St., a Contributing structure located in the Peck Gardens Planning Unit in the City of Deadwood.

Applicant: Linda Bryant
Owner: BRYANT, JERRY L & LINDA A
Constructed: 1890

CRITERIA FOR THE ISSUANCE OF A PROJECT APPROVAL

The Historic Preservation Commission shall use the following criteria in granting or denying the Project Approval:

General Factors:

1. Historic significance of the resource:

This building is a contributing resource in the Deadwood National Historic Landmark District. It is significant for its historic association with the founding and initial period of growth of the town of Deadwood. Spurred by the tremendous mining boom of 1876, Deadwood grew quickly and became the first major urban center of western South Dakota. Deadwood's economic prominence during the late 1800s and early 1900s was reflected by the construction of a number of large residences such as this one. These houses displayed a variety of architectural styles: Queen Anne, Second Empire, Colonial, and even Gothic variants are found locally. Together, these houses are among the strongest reminders of Deadwood's nineteenth-century boom.

2. Architectural design of the resource and proposed alterations:

The applicant is requesting permission to replace the siding and windows. After the site visit the application should be to repair and paint existing siding, replace inappropriate windows, side front porch with new double hung windows and install storm windows on existing windows.

Staff Opinion:

Staff met with the applicant and contractor to review the siding removal and windows project. Discussion was held on only replacing the windows on the enclosed porch portion of the structure and replacing the windows with taller double hung windows and installing new siding to match the reveal of the rest of the structure. Install eight storm windows on the rest of the structure instead of replacing windows which will now be repaired, replace two storm doors, and repair the current siding and paint instead of installing new siding. With this agreed upon changes, the proposed work and changes do not encroach upon, damage or destroy a historic resource or have an adverse effect on the character of the building or the historic character of the State and National Register Historic Districts or the Deadwood National Historic Landmark District.
