

Dear Jeremy Russell,

Thank you for your interest in Keiser equipment.

As a company, we relentlessly pursue solutions that push the limits of fitness science. It's a mission that began in 1978, when Keiser introduced pneumatic-resistance technology to the strength-training industry. By providing an alternative to outdated iron resistance, we created a safer and more efficient way for people of all ages and ability levels to build strength at speed for true power.

Following the engineering success with strength machines, Keiser then turned our sights to become the first company to use magnetic resistance for cardio machines. That technology enabled us to revolutionize indoor group cycling by delivering a quiet, reliable, consistent ride with bikes that were the first to display power in real time.

Today, more than 80 percent of the world's top sports teams use Keiser strength, functional and cardio machines – including champions in the NFL, MLB, NBA, NHL and World Cup – as well as countless Olympians, other elite athletes and everyday people interested in improving their overall health and fitness. Once you use our machines, we think you'll quickly discover why Keiser is their equipment of choice.
