The Historic Preservation Commission shall use the following criteria in granting or denying the Project Approval:

General Factors:

The applicant is requesting permission to enlarge the current 16x12 deck to a 24x22 deck and replace the boards on the current deck.

Staff Opinion: This project is outside the viewshed of the main portion of the National Landmark District and is of modern construction. The proposed work and changes do not encroach upon, damage or destroy a historic resource or have an adverse effect on the character of the building or the historic character of the State and National Register Historic Districts or the Deadwood National Historic Landmark District because it is not readily visible within the historic district.

Motions available for commission action:

A: If you, as a commissioner, have determined the Project DOES NOT Encroach Upon, Damage or Destroy a historic property then:

Based upon all the evidence presented, I find that this project **DOES NOT** encroach upon, damage, or destroy any historic property included in the national register of historic places or the state register of historic places, and therefore move to grant a project approval.
