

## **Concerns with the Cadillac Jack's Trolley Stop during the Sturgis Motorcycle Rally**

Comments from Herb Cowart:

*When we board there the view of lanes going towards the Welcome Center are blocked to vehicles leaving Jacks and at times drivers get impatient and make a left not knowing if its safe.*

*Last year during Rally, a chopper came out in front of me, there was a trike behind him that although I blew the horn and gestured to wait did the same.*

*When the trike did that, there were 4-5 bikes coming in the left lane and they luckily avoided the trike.*

*I feel as far as Rally, perhaps the City could put up a temporary three way stop, one on each side of 85 and one where the vehicles are leaving Jacks.*

*As you know, the more stops the bikes have to do, the slower they move thru town.*

*Perhaps a long term solution would be to have Jacks put up a warning sign for vehicles leaving saying no left turn while a Trolley is at the stop.*

*We normally are only there a minute or two.*
