Outdoor/Indoor Displays Deadwood City Ordinance 8.08.010 requires approval of this application by the Deadwood City Commission. The Deadwood Fire Department may require standby personnel and equipment

based on potential fire conditions and weather conditions on the day/time of the display/discharge. The Deadwood Fire Department Fire Chief or his/her designee reserves the right to cancel permits based on fire potential, given determining factors such as atmospheric and foliage conditions. The application will also have a diagram of the proposed pyrotechnic display.

A bond or general liability insurance has been obtained from The Falls Insurance Center (Insurance Company) for \$2,000,000 (amount) to cover payment of all damages which may be caused either to a person or persons or to any property by reason of the permitted display and arising from any acts of the permitted company or person, the company's persons' agents, employees or subcontractors with the City of Deadwood an additional insured. A certificate of insurance shall accompany this permit application.

The permitted company or person, the company's or person's agents and employees agree to hold the City of Deadwood, South Dakota, and the Deadwood Fire Department harmless in the event of an accident arising from this permitted display.

National Fire Protection Association (NFPA) 1123 & 1126 shall be followed prior to, during and after pyrotechnics display.

Checklist for Pyrotechnic Plans

- Name of the person, group, or organization sponsoring the production.
- Date and time of day of production.
- Exact location of the production.
- Name of the person in charge of firing the pyrotechnics (the pyrotechnic operator).
- Number, names, and ages of all assistants who are to be present.
- Qualifications of the pyrotechnic operator
- Pyrotechnic experience of the operator.
- Confirmation of any applicable state and federal licenses held by the operator or assistant(s).
- Evidence of the permittee's insurance carrier or financial responsibility.
- Number and types of pyrotechnic devices and materials to be used, the operator's experience with those devices and effects, and a definition of the general responsibilities of assistants.
- Diagram of the grounds or facilities where the production is to be held that shows the point at which the pyrotechnic devices are to be fired, the fallout radius for each pyrotechnic device used in performance, and the line behind the audience is to be restrained.
- Point of on-site assembly of pyrotechnic devices
- Manner and place of storage of pyrotechnic materials and devices.
- Material Safety Data Sheets (MSDS) for the pyrotechnic material(s) to be used.
- Certification that the set, scenery, and rigging materials are inherently flame-retardant or have been treated to achieve flame-retardancy.
