

ORDINANCE NO. 1335
AN ORDINANCE CREATING CHAPTER 15.26 PLUMBING CODE

NOW, THEREFORE, BE IT ORDAINED by the City Commissioners of the City of Deadwood that a new Chapter 15.26 of the Code of Ordinances of City of Deadwood, South Dakota entitled “Plumbing Code” is hereby established as follows:

15.26.010 Interceptors.

INTERCEPTORS - GENERAL

When Required

Interceptors (including grease, oil, and sand interceptors, etc.) shall be provided when, in the opinion of the Public Works Director, they are necessary for the proper handling of liquid wastes containing grease, flammable wastes, sand, solids, and other ingredients harmful to the building drainage system, the public sewer or sewage treatment plant or process.

A. *Grease Interceptors.* The Director of Public Works, or his or her designee, (Building Inspector or Wastewater Collection Operator) is responsible to determine if a grease interceptor is necessary in Deadwood. The Building Official will approve design, sizing, and installation. All kitchen drainage receiving grease shall pass through the interceptor. The interceptor shall be easily accessible for cleaning and inspection. The responsibility of cleaning and maintaining the interceptor in an efficient operating condition shall be the owner and/or lessee's responsibility. Single-family dwelling units are exempt from the grease interceptor requirements. Existing interior replacements may be allowed when proper sizing and installation procedures can be accomplished. When, in the judgment of the city, it would be impractical or unnecessary to install a full-size grease interceptor outside the building, due to the nature or relative size of a food establishment, the installation of an inline grease trap may be approved. Expense shall not be considered sufficient reason to waive the requirements for full-size grease interceptors.

Dated this 1st day of November, 2021

CITY OF DEADWOOD

David Ruth Jr., Mayor
