Case No. 240018
Address: 37 Lincoln Ave.

Staff Report

The applicant has submitted an application for work at 37 Lincoln Ave., a contributing structure located in the Ingleside Planning Unit in the City of Deadwood.

Applicant: Danika McFarland
Owner: MCFARLAND, DANIKAO
Constructed: c 1880

CRITERIA FOR THE ISSUANCE OF A PROJECT APPROVAL

The Historic Preservation Commission shall use the following criteria in granting or denying the Project Approval:

General Factors:

1. Historic significance of the resource:

This building is a contributing resource in the Deadwood National Historic Landmark District. It is significant for its historic association with the founding and initial period of growth of the town of Deadwood. Spurred by the tremendous mining boom of 1875, Deadwood grew quickly and became the first major urban center of western South Dakota. This house displays the architectural characteristics common to working-class housing in pre-World War I Deadwood. These small, vernacular cottages, typically of foursquare or T-gable plan, occasionally featured limited Queen Anne detailing. A number of these houses survive today, scattered throughout Deadwood's neighborhoods. This is one of the oldest and best-preserved houses in the Ingleside neighborhood.

2. Architectural design of the resource and proposed alterations:

The applicant is requesting permission to lift the house and install a concrete foundation. Excavate the land to create a basement and extend to back of the lot where a garage will face Taylor Street. Install an egress window on the left side of the foundation wall. Remove the concrete retaining wall that has fallen on the right side of the house.

Staff Opinion:

This project has been divided into phases. The first phase will consist of repairing the foundation (While this project approval is for the first phase of the project, preliminary plans for the entire project are included in the packet). Staff has conducted a site visit with the owner to review the proposed project. The owner will be required to conduct archeology during any dirt removal. The proposed work and changes do not encroach upon, damage or destroy a historic resource or have an adverse effect on the character of the building or the historic character of the State and National Register Historic Districts or the Deadwood National Historic Landmark District.

Motions available for commission action:

Based upon all the evidence presented, I find that this project **DOES NOT** encroach upon, damage, or destroy any historic property included in the national register of historic places or the state register of historic places, and therefore move to grant a project approval.
