This was the 2nd email....Lyman was super impressed. I'd replied to his 1st email saying it was a joint effort with City and chamber. Kudos!

Putting up signage and policing the Sherman Street Parking Lot made the biggest difference, otherwise we would have seen trailers there like we saw during the Rally. I suggest that we give those responsible for policing that lot a big THANK YOU.

This was a coordinated effort between the City and Chamber. Having the slag pile for trailer parking and running a trolley out there was the much-needed solution that we didn't have in the past.

I'm happy you saw the improvement.

Cheers,

Sharon

Compared to the Motorcycle Rally, your efforts to eliminate trailer parking successfully **more than doubled** the available parking spaces in the Sherman Street Parking lot, providing a significant benefit to our visitors during Kool Deadwood Nights.

Your recommendations allowed many to park within easy walking distance of our events, enhancing their experience. Moreover, your actions enabled us to fully showcase the multi-million-dollar improvements made to the creek and adjacent parking lot.

Your coordination with RCS to relocate their idle construction materials was also much appreciated.

Thank you for all your focused work!
