Case No. 210001

Address: 1906 Deadwood Mountain Drive

Staff Report

The applicant has submitted an application for Certificate of Appropriateness for work at 1906 Deadwood Mountain Drive, a contributing structure located in the South Deadwood Planning Unit in the City of Deadwood.

Applicant: ZCW Inc.
Owner: ZCW Inc.
Constructed: 1906/1909

CRITERIA FOR THE ISSUANCE OF A PROJECT APPROVAL

The Historic Preservation Commission shall use the following criteria in granting or denying the Project Approval:

General Factors:

1. Historic significance of the resource: The last remaining mining processing building left in Deadwood, this facility operated until 1973. It takes its name from the crushed ore, suspended in water, left as a by-product of the gold removal process. This plant was built to further process that "slime" to extract the remaining gold. About 1,700 tons of slime were processed daily at this plant, using a system of filter presses developed by C.W. Merrill. Several similar buildings once stood at the norther entrance to Deadwood where the rodeo grounds are now located, but were abandoned and demolished or destroyed by fires shortly after this building was built. The left wing of this building was added in 1909. This resource has been adaptively reused as a gaming and event center.

2. Architectural design of the resource and proposed alterations: The applicant is requesting permission to install gutters to the structure in an effort to help protect the structure from water damage caused by runoff from the roof. The gutters will be white metal and the down spouts will be hidden from public view.
