Case No. 240089
Address: 11 Jackson

Staff Report

The applicant has submitted an application for Project Approval for work at 11 Jackson St., a contributing structure located in the Ingleside Planning Unit in the City of Deadwood.

Applicant: Katherine Sims
Owner: SIMS, KATHERINE A0
Constructed: c 1942

CRITERIA FOR THE ISSUANCE OF A PROJECT APPROVAL

The Historic Preservation Commission shall use the following criteria in granting or denying the Project Approval:

General Factors:

1. Historic significance of the resource:

This building is a contributing resource in the Deadwood National Historic Landmark District. It is significant for its historic association with the growth and economic activity which took place in Deadwood and the northern Black Hills from the late 1920s until World War II. Spurred by resurgence in local mining activity, Deadwood experienced a period of expansion and new construction during these decades that it had not seen since the nineteenth century. In Deadwood, as elsewhere in the United States, residential construction from this period commonly borrowed from one or more earlier, traditional forms. These "Picturesque Revival" houses could display elements of Tudor (most common locally), Colonial, or Cape Cod design. Other construction of the period assumed the more contemporary looks of Modern or Minimal traditional styles.

2. Architectural design of the resource and proposed alterations:

The applicant is requesting permission to replace the railing on the existing deck to match/complement the proposed fence. Replace the wooden lattice under the existing deck to make it a solid enclosure for privacy. Add fencing at locations outlined in red on the diagram. Fencing will either be composite, powder coated aluminum or combo wood/iron pickets. Fencing to complement replacement deck railing. Construct a ground level deck next to the existing deck. This is highlighted in orange on the attached diagram.
