CRITERIA FOR THE ISSUANCE OF A PROJECT APPROVAL

The Historic Preservation Commission shall use the following criteria in granting or denying the Project Approval:

General Factors:

1. Historic significance of the resource:

This building is a contributing resource in the Deadwood National Historic Landmark District. It is significant for its historic association with the founding and initial period of growth of the City of Deadwood. The house had a one-story porch on the left side near the front. By 1901, the front porch had been enclosed. A large Romanesque-style opening was located at the first floor and a dormer wall above it. Later modifications include enclosing the arch opening, enclosing the side porch and the installation of a bay towards the front.

2. Architectural design of the resource and proposed alterations:

Applicant is requesting permission to replace front and rear metal doors with metal doors.
