Our Focus

GHG Reductions

Reduce emissions and promote reliability and local control

Electrification

Facilitate adoption of all-electric buildings and transportation

Competitive Rates

Provide affordable energy, competitive with incumbent utility

Economic Growth

Invest in local communities and help develop workforce

02 Competitive Rates

Average Residential Savings

18%

Average approximate difference between PG&E and CCCE residential generation rates in 2022

2% to 19%

Small to medium commercial* customers savings after March 2022

**Because our IOU imposes an additional demand charge that we do not, we cannot provide a percent savings for large commercial and agriculture accounts.*

Why electrify?

Reduce GHG Emissions

Transportation accounts for 41% of CA emissions. Gas appliances account for 12%.

Better Health Outcomes

Gas appliances impact indoor air quality and public health. Diesel exhaust is linked to multiple serious conditions.

Make an Impact

Every CCCE customer is on a pathway to carbon-free energy by 2030. Switching from gas to electric vehicles and appliances helps our region finish the job.
