EXECUTIVE SUMMARY

The *Deschutes County and City of Sisters Historic Preservation Strategic Plan 2022-2027* provides a framework for shaping the county and City of Sisters’ preservation programs and services over the next five years and creates a blueprint for allocating Certified Local Government (CLG) grant funding. Currently, Deschutes County and its Historic Landmarks Commission (HLC), which also serves the City of Sisters, rely on CLG grants administered through the Oregon State Historic Preservation Office (SHPO). They are awarded to eligible local governments in the spring of every odd numbered year. The grant period lasts approximately sixteen to eighteen months. The grants, which require a 50/50 match are typically in the \$10,000 to \$14,000 range and used for a broad range of preservation activities.

Developing a Strategic Plan enables staff and HLC to reach out to our municipal partners, the Oregon State Historic Preservation Office (SHPO), historic landmark property owners, stakeholders, and the public to prioritize preservation programs that build upon existing projects and promote collaboration. This effort also takes into account finite in-kind resources from Deschutes County and Sisters. Both rely on their Community Development Department (CDD) to manage the CLG program and the HLC as outlined in the annual CDD work plan.

To prepare this plan, Deschutes County staff solicited the guidance of a spectrum of people and organizations: two public forums provided opportunity for public input; an on-line survey was established to provide additional feedback; and several stakeholder interviews were held to further understand their opinions.

The mission of the HLC is to preserve the City of Sisters and Deschutes County’s significant historic and archaeological resources and to encourage greater public understanding and appreciation.

The plan identifies three goals, with associated objectives and actions, which are intended to guide and measure the success of the program:

1. **Collaborate:** Strengthen the network of historic preservation and community partners through collaboration.
2. **Coordinate:** Facilitate program administration and special projects that provide opportunities to expand the scope and benefits of historic preservation.
3. **Educate:** Promote educational opportunities highlighting the value, benefits, responsibilities, and requirements of historic preservation.

OVERVIEW

Historic resources are recognized by Statewide Planning Goal 5, Natural Resources, Scenic Views and Historic Areas and Open Spaces, and Oregon Administrative Rule (OAR) 660-023. The Statewide Goal and OAR recommend cities and counties inventory and protect historic and cultural sites. Recognizing the value and importance of having a connection to our past, Deschutes County and the City of Sisters have chosen to implement and maintain a historic preservation program.

What is a Historic Resource?

Historic landmarks connect us to the past and teach us how people in different eras worked and interacted within their surroundings. Historic resources are the buildings, structures, sites, districts, and large objects that have survived to the present. Examples include houses, cemeteries, bridges, camps, and canals. They are important because of their association with significant local, state, or national themes, events, individuals or eras in history. They also include traditional cultural places which are not obvious constructions because they are no longer present but continue to have significant meaning such as traditional Native Americans meeting places. These landmarks enrich the community by providing tangible evidence of our heritage.

Why Preserve the Past?

As described by the National Trust for Historic Preservation, historic preservation means saving the story of us—the communities we cherish, the parks we love, the buildings we admire, the little stories we always share with visitors. From ancient cultures through the growth of our current communities, it is about saving the places, buildings, artifacts, stories, and memories that preserve and enhance our human experience.

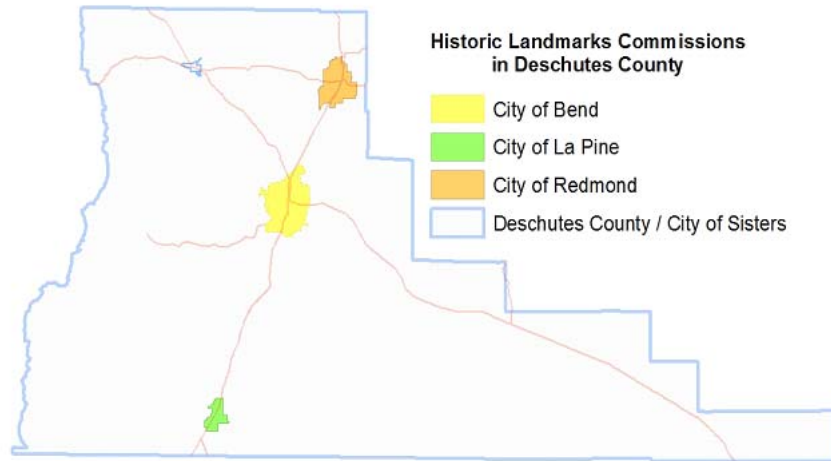

BACKGROUND

Historic Preservation Program History

In 1979, Deschutes County inventoried potential historic and cultural sites in the Resource Element of the Comprehensive Plan. The 1979 Comprehensive Plan included goals and policies to protect historic resources as well as provisions that the County establish an HLC and adopt an ordinance to protect designated historic sites. One year later, the Board of County Commissioners (BOCC) adopted Ordinance PL-21, which established an HLC and created a process to evaluate, designate and regulate historic structures. The HLC subsequently, and over time, evaluated proposed historic sites and cultural resources, including Locally Significant Historic Resources, National Register historic properties,

Archaeological Sites and Objects. The resulting list of historically designated sites can be found in the Comprehensive Plans of Deschutes County and the City of Sisters (see Section 2 for more on the designation process for locally significant sites).

Since 2011, Deschutes County and Sisters reorganized and created their own program as a result of the Cities of Bend, La Pine and Redmond wanting autonomy and becoming independently recognized Certified Local Governments (CLG). The jurisdictions of various historic landmarks commissions are illustrated in the map below.

Map of Historic Landmarks Commissions in Deschutes County

Purpose of the Historic Landmarks Commission

The HLC serves as an advisory body for issues concerning historic and cultural resources for unincorporated Deschutes County and the City of Sisters and reviews development applications for alterations to designated historic sites. In addition, it reviews the exterior treatments of buildings applying the Western Frontier Architectural Design Theme for the City of Sisters. For more information concerning the procedures and policies of the Historic Landmarks Commission, please refer to the *Historic Landmarks Commission Policies and Procedures Manual*.

The Deschutes County Comprehensive Plan Section 2.11 Cultural and Historic Resources and Deschutes County Code (DCC) Chapter 2.28, Historic Preservation and Historic Landmarks Commission, establish the legal basis for the HLC.

HISTORIC PRESERVATION POLICIES

Deschutes County

In 2011, Deschutes County updated its Comprehensive Plan, a policy document that provides a framework for addressing resource protection, rural growth and development over a 20-year period (2010-2030). The update was performed to ensure a consistent policy framework for land use planning and development that reflects current conditions and trends, recent population projections, state law, and community values. The Comprehensive Plan goals and policies addressing cultural and historic resources are summarized below.

Goal and Policies

Goal 1 **Promote the preservation of designated historic and cultural resources through education, incentives, and voluntary programs.**

Policy 2.11.1 The Historic Landmarks Commission shall take the lead in promoting historic and cultural resource preservation as defined in DCC 2.28.

- a. Support incentives for private landowners to protect and restore historic resources.
- b. promote educational programs to inform the public of the values of historic preservation.
- c. Support improved training for the Historic Landmarks Commission.

Policy 2.11.2 Coordinate cultural and historic preservation with the Oregon State Historic Preservation Office.

- o Maintain Deschutes County’s designation as a Certified Local Government.
- o Encourage private property owners to coordinate with the State Historic Preservation Office.

Policy 2.11.3 Encourage the preservation of lands with significant historic or cultural resources.

- a. Develop and maintain a comprehensive list of sites on the National Register of Historic Places.
- b. Review County Code and revise as needed to provide incentives and adequate regulations to preserve sites listed on the Statewide Goal 5 historic and cultural inventory.

City of Sisters

The Sisters Comprehensive Plan was revised and adopted in 2021. The Plan's goals and policies inform critical planning and regulatory documents used by the City that guide growth and development in Sisters, specifically the Sisters Development Code. Standards in those documents provide the criteria that are used to make land use decisions by the City and go a long way toward shaping the character of development. The plan also provides key guidance on partnership with neighboring agencies including Deschutes County, Sisters-Camp Sherman Fire District, and the Sisters School District, to name a few, to provide key services.

The City of Sisters recognizes the importance of historic preservation in several sections of its Comprehensive Plan:

Livability Section

- **GOAL 4: Maintain and enhance the livability of Sisters as a welcoming community with a high quality of life and a strong community identity.**
 - Objective 4.1: COMMUNITY IDENTITY. To promote projects, programs, and initiatives that strengthen the community's identity, including historic resources, scenic views, trees, artisanal activities, and inclusive attitude towards all community members.
 - POLICY 4.1.1: The City shall recognize and conserve the environment and natural resources that enhance the community's identity, including open spaces, natural landscapes, outdoor recreation areas, historic structures, architectural styles, and public art.
 - POLICY 4.1.7: The City shall conduct public education and outreach of the historic resources in Sisters and encourage property owners to nominate their eligible properties to the Deschutes County Inventory of Historic Sites and/ or National Historic Register.
 - POLICY 4.1.8: The City shall identify and protect historical sites in coordination with the Deschutes County Landmarks Commission

Environment Section

- **GOAL 6.2: Protect people, property, and structures from natural hazards**
 - Objective 6.2.1: To reduce the hazards related to wildfire through a combination of proper location and design of new development, reduction of combustible materials, and coordination with partnering agencies and community members.
 - POLICY 6.2.1.5: The City shall support a program to support fire resistant retrofits of commercial and residential buildings with emphasis on buildings that are designated historic or have historic value, as determined through historic survey

Parks, Rec, Open Space Section

- **GOAL 7.1: Plan, develop, maintain, and enhance recreation opportunities, scenic views, and open spaces to meet the needs of community members and visitors of all ages, abilities, cultures, and incomes and enhance their physical and mental health.**
 - POLICY 7.1.16: The City shall add signage or information kiosks in parks that include historical and educational information, where appropriate.

HISTORIC RESOURCES

The Deschutes County HLC is part of a nationwide network of groups dedicated to the preservation and celebration of our heritage. The HLC is responsible for reviewing and maintaining the Goal 5 list of designated historic resources. The resulting inventory of historically designated sites is formally adopted in the Comprehensive Plans of Deschutes County and the City of Sisters. In addition, the National Register of Historic Places catalogs and protects properties worthy of preservation because of their significance to our nation's history, architecture, landscape, archeology, engineering, and/or culture. As a CLG, the Deschutes County HLC is responsible for oversight of both the locally and nationally designated resources. Both are detailed below.

HISTORIC RESOURCE LISTS

The following list of Goal 5 Cultural and Historic Resources in rural Deschutes County appear in the County's current Comprehensive Plan. These inventories are acknowledged as written by the Department of Land Conservation and Development. In 2020, Deschutes County's inventories were updated to comply with Oregon Administrative Rule (OAR) 660-023-0200, the historic resources rule, which includes procedural requirements for surveying sites, evaluating integrity, and considering whether and how to protect historic and cultural resources. The State amended the historic resources rule in February 2017 to require a base level of protection for National Register historic properties and provide a more usable and clearer list of standards for local governments to follow if they have an established historic preservation ordinance. This rule change is reflected in the separation of National Register sites into pre- and post-2017 listings below. Protection standards for resources listed on the National Register of Historic Places are required for local governments to comply with regardless of what the local ordinance provides. Any modifications to any element of this list must occur by legislative amendment.

The canal was built in an area that had a population of 81 people when it was constructed. Central Oregon Canal: A gravity-flow irrigation canal constructed in 1905 and enlarged in 1907 and 1913. The canal retains its impressive historic open, trapezoidal shape, dimensions, and characteristics. It is characterized by the volcanic rock flows, native materials, rocky bed and sides, and its hurried hand-hewn workmanship. The historic

district is 3.4 miles long, crossing rural land between the Ward Road Bridge on the western edge and the Gosney Road Bridge on the eastern edge. In the historic district, the canal ranges in width from 34' to 78', averaging around 50', and its depth varies from 1' to 9', averaging around 4' deep, depending on the amount of volcanic lava flows encountered, the terrain, and slope. The canal through the historic district carries nearly the full amount of water diverted from the Deschutes River, 530 cubic feet per second during the irrigation season, April through October. The historic district encompasses 50' on either side of the canal centerline to create a 100' corridor that includes the whole of the easement held by COID, and all the contributing resources. PLAN DEVELOPMENT

Community Involvement

Deschutes County values public involvement, recognizing it is a critical part of evaluating public policy and land use planning processes. Understanding the perspective, goals, interests, and concerns of the community allows decision makers to make informed decisions. Recognizing this, Planning Division staff conducted an outreach campaign focused on historic preservation, consisting of an online survey, public forums, and several stakeholder interviews.

- Public forum announcements were provided in a variety of formats to reach the largest population of interested parties, including:
 - Press release to the media
 - Social media blasts
 - E-mail distribution to 12 stakeholders, several of which further distributed the information to their network of members and partners
 - CDD /project website, which included meeting information and survey link
- Public forums provided an overview of the historic preservation program and the strategic planning process.
 - A PowerPoint presentation introduced the history of historic preservation in Deschutes County, project background, and purpose of the meeting.
 - Two forums were scheduled; due to technical difficulties only one was held, but staff encouraged participants to reach out to staff to provide more information or ask questions if the cancellation created a scheduling conflict
 - Public forums were conducted to allow for both virtual and in-person participation, and the recording of the forum is available at any time to watch online
- An online survey solicited input from the public and stakeholders.
 - In addition to the open forum, the public was provided an opportunity to complete an online survey to weigh in on historic preservation issues and priorities. This enabled participants to convey their thoughts privately.
 - The survey was linked on the project web page and in social media blasts
 - A total of 27 responses were collected.
- Stakeholder Interviews
 - Staff reached out to stakeholders for individual interviews to gather their opinions and perspectives on Deschutes County's historic preservation program.
 - Staff contacted 12 stakeholders and invited them to participate in a stakeholder meeting independent of the community conversations. Staff
