OWNER'S REVIEW	DATE	REVISIONS	DATE

# Proposed Facility

A low barrier service center with accessibility and walk in services available.

It would include a 2,500 sq. foot modular building with small meeting rooms or flex-space offices.

This facility would include a kitchen, restrooms, and reception area.

The site would also have a 1,600 sq. foot heated storage area with space for our shower trailer and program supplies.

Outside would include parking and a pet kennel area.

There would be potential for expansion in the future.

# Why is a Hub needed

Consolidate services in a central location

People served more effectively, consistently, and efficiently

Single point of entry model

Location is close to people in need

Lowers barriers to access services

Strengthens the housing continuum of services

Jericho Road programs housed in one place

# People to be served

---

Houseless

---

Hungry

---

Managed camp participants

---

Mentally and/or physically challenged

---

Those in need of recovery support

---

Those in need of financial mentoring

---

Those in need of finding stable, safe housing

---
