Background & History: The Oregon Health Authority (OHA) was created by the 2009 Oregon legislature to bring most health-related programs in the state into a single agency to maximize its purchasing power. OHA is at the forefront of lowering and containing costs, improving quality and increasing access to health care in order to improve the lifelong health of Oregonians.

OHA knows what it needs to do to improve health care: focus on health and preventive care, provide care for everyone and reduce waste in the health care system. OHA includes most of the state's health care programs, including Public Health, the Oregon Health Plan, employee benefits and public-private partnerships. This gives the state greater purchasing and market power to begin tackling issues of costs, quality, lack of preventive care, and health care access.
