PROPOSED FABRICATED ARTWORK:

- Rusted steel life size cut-outs of horses (silhouettes)
- Rusted steel life size cut-outs of a family of mule deer (silhouettes)
- Rusted steel cut-outs of a school of trout atop posts that will be in the ground (silhouettes)
- Handmade steel windmill with a trout as the weather vane
- Juniper corner fence with wire
- Native landscape comprised of Rabbit Brush, Sage, and native grasses

I believe my concept represents what Tumalo is, and what it has. The old windmill represents us as an irrigation district. The mule deer for the migration zone we are in, and the fish for the Deschutes river that flows through Tumalo and lastly, horses for all the horse lovers here!. All of this is surrounded by native vegetation with a representation of old fencing.

My name is Nathan Wismer, and I own/operate Nathan's Custom Wood and steel, LLC here in Tumalo. My company specializes in custom wood and steel fabrication, from firepits, railings, furniture, to signs and art work. If you can imagine it, we can most likely build it!
