Fax: (541) 585-2591

Dear Erin,

We are pleased to inform you that your project, Improving Perinatal Care Coordination across Oregon, has been selected as a 2021 COHQA Grant recipient. This project has been awarded \$30,000 to be used between July 1, 2021 and June 30, 2022.

Funds must be spent on requested budget items. As the year unfolds, adjustments to budget item allocation may be allowed with approval from COHQA. If project funds remain unspent at the end of the grant year, you may request a no-cost extension to allow use of the unspent funds. If no such request is made, or the request is not approved by COHQA, unspent funds must be returned to COHQA at the end of the grant year.

A mid-year report and final report are required, and we will follow up with instructions to assist you with those.

Thank you for your passion to share with other communities what you have learned through your innovative work in perinatal care coordination in Deschutes County. We are honored to partner with you on this project.

Sincerely,

Shimiko Montgomery
COHQA Executive Director
