2	as the question says, it's our heritage	4/20/2022 7:42 AM
3	Because I am a resident of Deschutes County and heritage awareness and preservation are important to me.	4/12/2022 9:36 AM
4	Cultural resources are non-renewable resources. If the County and the public don't get on the same page about these resources and the value they hold, they run the risk of being destroyed or looted.	4/11/2022 1:07 PM
5	My district owns a historic property and the preservation of that property is important to us as it has significant historical value to the settlement of Deschutes county. On a personal note, it is important to preserve historic properties to educate and inform the community about our history so that history is not lost/forgotten.	4/11/2022 9:50 AM
6	The buildings tell the story of our heritage. It's harder to relate to it without seeing it with your own eyes. Plus, you can't replicate the beauty and craftsmanship of older buildings and that's good for residents and tourists who seek out genuine places to visit.	4/11/2022 8:59 AM
7	Historic preservation is a tangible way to recognize, honor and remember the unique history of Deschutes County and Sisters and will protect precious assets that cannot be replaced if they are destroyed.	4/8/2022 2:05 PM
8	Preserving heritage is important because it provides context and a better understanding of Deschutes County and the City of Sisters.	4/8/2022 8:06 AM
9	Our history is an important part of our region's story, particularly in cities.	3/28/2022 5:18 PM
10	Our community's heritage grounds us for the future. When you arrive in Bend and see the Old Mill smokestacks, you are reminded that the city has a logging past. We need more landmarks like these to ground our ever-changing identity.	3/28/2022 9:10 AM
11	You should not let the past disappear.	3/27/2022 9:33 PM
12	We always need to preserve history!	3/27/2022 8:02 AM
13	Historic properties serve as a story about our local past. Once gone from any existence, the memory and accurate history of a place also suffers.	3/26/2022 8:12 PM
14	its an important part of americana, and frankly they stand as testament that old homes withstand the years better than garbage trackhomes	3/25/2022 10:55 AM
15	There are a lot of interesting stories these places tell and lessons they teach. We could all benefit in some way from knowing more about them.	3/25/2022 10:25 AM
16	History informs what we do or don't do next	3/25/2022 10:21 AM
17	Central Oregon has grown so fast in the last few years. It is too easy for people to move here and not know anything about our past history.	3/25/2022 10:15 AM
18	I grew up here and have watched historic neighborhoods be slowly gentrified. Spaces of local history demolished and replaced by new, giant homes incongruous with vernacular architecture. Amazing natural areas that should be protected as sites of indigenous cultural heritage developed into suburbia tracks, or indiscriminately milked for their tourist sales value. Our community needs policy and policy advocates who can stand up for / help protect what makes this place special in the face of predatory developers.	3/25/2022 8:25 AM

24	Educational value	3/24/2022 11:49 AM
25	Help preserve the community diversity.	3/24/2022 11:03 AM

## Q9 Please include any other comments, concerns, or recommendations related to historic preservation in rural Deschutes County and the City of Sisters.

Answered: 9 Skipped: 18

#	RESPONSES	DATE
1	It would be great to increase funding opportunities for people to designate their structures as historic. If we provide them a benefit we are more likely going to get more of our historic buildings saved. Otherwise, it will only be the folks who have a real sense of history saving their buildings and we probably don't have enough of those types of people.	4/11/2022 8:59 AM
2	Thank you for taking on this important work that is often overlooked.	4/8/2022 2:05 PM
3	The County should focus its preservation efforts inside the City of Sisters City limits.	3/28/2022 5:18 PM
4	Many historic resources require ongoing use to avoid languishing with time. We will need to allow structural modifications, energy upgrades, and interior refreshes of building to ensure they remain in good shape for future visitors and residents to enjoy.	3/28/2022 9:10 AM
5	The County story map is a fantastic resource, and hope other jurisdictions use it as well. Wish there will be more community involvement in preservation overall, not just when it serves one's own personal interests.	3/26/2022 8:12 PM
6	Let's celebrate milestone years for Deschutes County and its cities. Celebrate how we started and how we grew.	3/25/2022 10:15 AM
7	Please consider how white-washed the historic story that is being told about this place is. Where is the history about the first people of this land and their values? Predominately industrial history and preservation is put on display. This is not just deceptive, it is historical erasure.	3/25/2022 8:25 AM
8	There are opportunities to celebrate historic preservation: Most endangered places - Deschutes County May Preservation Month thru business publications Fete-ing refurbished commercial buildings (renovation is greener than taking things to the landfill): there should be a place holding in the Building a Better Central Oregon Updating the map so that the Lynch & Roberts sign is actually shown at the actual place where it is located, Do a Preservation Update: here's the status of this project X	3/24/2022 2:55 PM
9	Bring together all of the non-profits such as museums, genealogy groups and see how they can work together, share resources, etc. The genealogy society of Bend, is standing on it's last leg, but not due to funds only volunteers. They have a large amount of money that could be shared with other organizations.	3/24/2022 11:49 AM
