Jeannie Klein

City Clerk

City of Diamondhead

5000 Diamondhead Circle

Diamondhead, MS 39525

Good afternoon Ms Klein.,

Per your email correspondence, please allow this letter to serve as AshBritt's formal memo to the City of Diamondhead MS., requesting the renewal of the agreement titled Disaster Debris Removal and Disposal Services.

As mentioned in your email correspondence dated 6.18.24, the renewal will honor all previously agreed-term terms and conditions. The renewal will also reflect the adjustment of the Consumer Price Index (CPI) that the original agreement allows.

AshBritt requests that the renewal reflects the 3.2% increase for all line items on the price schedule. I have attached the original price schedule and added a column reflecting the price increase as determined by CPI.

Please don't hesitate to reach out to me with any questions or comments.

Regards,

Jason Fawcett

Sr. Vice President

AshBritt, Inc.

Section 4.0 – Cost Proposal

The Cost Proposal contains tasks the City has identified as necessary to fully perform the scope of services required. Rates provided are understood to be fully burdened, to encompass all costs associated with providing the required services including operating costs, overhead, and profit. The Contractor is required to provide rates for all equipment and scheduled services in PART A and B. If there is no charge for a service, the Contractor should place \$0.00 in the applicable Unit Price field. PART B will be scored by the evaluation committee and used to rank competing proposal prices. The City reserves the right to amend the compensation schedule to meet project requirements that may not be evident at the time of this solicitation.

All disposal fees associated with the disposal of debris will be the responsibility of the contractor, to be passed through to the City at cost with no mark-up. The City retains final authority to review and approve of each disposal facility prior to use, to include permits, location, and associated disposal fees.
