**Subject:** DocuSign Plan Outlines & Discount Code

Hey Jon,

It was great talking with you today! Here is an outline of the plans we talked about, along with some getting started resources and a discount code!

### Web Plans

Personal– Single user only, able to send 5 documents a month - \$120 per year

Standard– 1-5 users, 100 documents a year (Basic functions of sending a document) - \$300 per user per year

Business Pro – 1-5 users, 100 documents a year (Basic functions as well as, being able to collect payments, bulk send, powerforms and more....) - \$480 per user per year

You can check out our different web plans [here](#). Like I said, I would recommend the Standard or Business Pro plan for what you are looking for. You can save 10% on the first year of any annual plan with the promo code: WEBNA8311 (This code never expires).

If you need multiple users on your account, you can add users from within your account after purchase by following [these instructions](#). Any additional users will be at full plan purchase price and do not include the discount above.

If you need any help getting set up, check out our [Getting Started Guide](#), which will walk you through sending a document, tagging, templates, and managing documents.

Our support team can be reached at 866-219-4318 for any technical questions or our on-boarding team can assist you on getting started: <https://www.docusign.com/learning-the-basics>

After looking these over if you feel like these web plans will not suffice, please reach out and I would be happy to get you in contact with someone to speak about an organizational plan. Let me know if you have any other questions!

Best,

Katie
