

Future Land Use Categories

Housing

Areas for single and multifamily housing (examples: cabins, duplexes)

Industrial

Areas used for manufacturing, storing, packaging, processing, etc. (examples: landfills, gravel pits)

Community Use - Facilities

Areas with community and nonprofit activities and facilities (examples: City Hall, VPSO building, wood boiler)

Community Use - Utilities

Areas essential for providing and distributing utilities (examples: water, sewer, power, or wastewater)

Recreation / Open Space

Areas for parks and recreational activities; areas with important habitat (examples: ball fields, playgrounds)

Cultural Sites

Areas with cultural, traditional resource management, and/or historical significance (examples: cemeteries, culture camp sites)

Riparian Hazard

Places near the rivers that are in danger of eroding.

Potential Community Facility

(See Facilities Planning chapter)
